PC Pack INSTRUCTIONS

The Tamagotchi® PC Pack allows multiple users to create their very own Tamagotchi® experience on their own personal computer, including training their own character desktop buddy to entertain them, open files, programs, or other important tasks.

Plus, the Tamagotchi® PC Pack is filled with plenty of other extras including 3 voice-activated games, a printing shop, downloadable wallpapers and screensavers, on-screen coloring book, and jigsaw puzzles!

1 SETUP AND INSTALLATION:

1. Please ask an adult for assistance.
2. Insert the programmed CD into the CD-ROM/DVD-ROM drive.
3. The system should automatically begin installation directly from the CD. If the installation process does not begin automatically, click the Windows® "Start" button and choose "Run". Click "Browse" and select your CD-ROM/DVD-ROM drive from the "Look in" list. Select "TamagotchiSetup.exe" and click "Open".
4. Follow the on-screen instructions to complete the installation.

VISTA AND XP USER NOTE:
Windows® XP and Vista require that all programs get installed from an account with Administrator rights. If you are not sure what this means or would like more information, please contact the technical support department of your personal computer manufacturer.

2 GETTING STARTED

1. Plug in the microphone included in your PC Pack to your personal computer.
2. Launch the "Tamagotchi" program by double-clicking on the shortcut from your desktop.
3. Follow the on-screen instructions to learn how to use the Tamagotchi® PC Pack software, to set-up your user preferences, and to train the voice recognition software.
4. After you've completed the initial installation and software tutorial, you're ready to begin enjoying all the benefits of the Tamagotchi® PC Pack!

Please note: The software included in the Tamagotchi® PC Pack is only compatible with the US-English versions of Windows® 2000, XP or Vista. If you currently have an alternate version of Windows® installed on your computer that was intended to be sold in a country other than the United States or Canada, the software may not be functional. Additionally, the voice-activated activities included in this software will only respond to the English language.

3 HELP

1. Send emails with your questions to pcpacksupport@bandai.com.

system requirements:

PC

Operating System : Windows® XP / Vista (US-English Version Only)
